

Stanwell Fields Church of England Primary School

Sports Premium Report

Report to parents: 2015/2016

Sports Premium

We are now in the fourth year of the Sports Premium. This is a grant that has been given to all schools by the Government in the wake of the 2012 Olympics in order to raise standards in physical skills and games. We have welcomed the Government's announcement in June 2013 to provide additional funding to improve provision of PE in primary schools. This funding is ring-fenced and therefore can only be spent on provision for PE and sport. We are committed to using this money to provide all our children with greater opportunities to develop sporting skills through high quality lessons and trained instructors.

At Stanwell Fields, we believe that PE and sport plays an important role for every pupil with the potential for children to excel and be challenged. The sports premium funding helps us to introduce children to new sports and to become more skilled in the everyday sports. We know that sports, in themselves, do not just deliver physical benefits. They help children to learn to be disciplined, to work collaboratively as a team, to struggle then persevere to overcome these barriers, develop interdependence skills and to strive to do their best. Children are often more prepared to do this in an outdoor or sports environment than in the classroom. We must utilise these characteristics of sport and look to transfer them to the classroom. The social aspects of sport can also often be beneficial to all children, and confidence and wellbeing can develop from taking part in physical activities. However, some children do not enjoy physical activity; we are working hard to inspire these children to become more active.

At Stanwell Fields our goals are:

- For all children to take part in regular and structured physical activity, and enjoy doing so
- For children's skills, competence in and love of physical activity to grow
- To increase participation in individual sports as well as team sports
- To embed the idea of regular exercise as an essential part of a healthy lifestyle

Allocation of Sport Premium Grant

This year our school has received £9285 Government funding from this initiative. We have spent a total of £13140 on professional coaching. Of this amount, £9440 has been spent on professional

coaching from Football Focus and £3664.50 has been spent on Sports Focus including the after school club and teacher's CPD development. £886.05 has been spent on training for staff by the SLA. This includes one training sessions this academic year and a 1:1 coaching session with the PE lead to be taken in the Autumn Term 2016. (Two more training sessions in the academic year 2016-2017 to follow this.)

Lead member of staff responsible: Mrs L Ellis

What does the Sport Premium mean for Stanwell Fields?

We have created an action plan to address the priorities we have identified.

- Investment of professional development of staff providing them with the opportunity to observe and take part in PE lessons taught by a professional coach.
- Setting up and running at least one after school sports club.
- Continuing to take part in local sports competitions/ events organised by the Sports Association and Surrey Youth Games.
- Making links to other community sports providers – encouraging pupils to join out of school sports clubs.
- To develop active playtimes with children engaged in physical games.

Impact so far

- Trained sports coaches continue to run activities at lunchtimes. These sessions are very popular with both boys and girls and numbers participating in all year groups have stayed high throughout the year. The children are engaged in the activities taking place and have learnt the rules and boundaries. This has resulted in an improvement in their behaviour. The children's ability is also improving as a result of regular opportunities to practise their skills.
- After school cricket and football clubs have been run by trained coaches throughout the year. The football club for Year 5 and 6 was very popular with both boys and girls attending the clubs. 18 children attended the cricket sessions and 29 children attended the football sessions. The club has had an impact on the children's skills and the football team has improved this year. Cricket club was very much enjoyed by the children, who developed their skills considerably throughout the course of the club.
- Trained coaches have also taken afternoon sessions once a week throughout the year. Each year group takes it in turn to have this extra session of sports and receives one session every half term. These sessions are based around developing core sports skills with the children and focus on a wide range of sports including tennis, cricket, handball, football and basketball. The children really look forward to their sessions and are very engaged by them. The coaches have noticed an improvement in children's core sporting skills as a result of

these sessions, as well as an improvement in the children's ability to take part constructively in team activities.

- Staff have received a training session from the SLA to improve their confidence in teaching multi skills games during PE session. This scheme has been bought in from Babcock. Staff were taught different games and activities to improve the children's collaboration skills as well as finding ways to bring other subjects into sport.

Pupil Voice

After speaking with children from year 1 to year 6 it was found that the children thoroughly enjoy their time with Football Focus and Sports Focus. They feel safe during these sessions and enjoy the different activities that they do. They would like to see this continue as well as the netball club that runs after school.

Next Steps 2015/2016

- To ensure that an efficient assessment system is embedded to evaluate standards across the school.
- To ensure that all teaching staff have the required skills and knowledge to teach and evaluate the New National Curriculum in physical education.
- Football focus to continue providing sports at lunchtimes for all children in Key Stage 1 and 2.
- Sports Focus will continue to take afternoon sessions once a week to provide CDP time for teachers. Each year group will continue to have one session per half term.
- Sports Focus will continue to run football and cricket sessions and other staff will be encouraged to run sports clubs after school.
- All pupils have 2 timetabled sessions of physical activity per week.
- A report will be sent to the Governors each term outlining the activities undertaken and the impact of this work.
